HEALTH INSURANCE INFORMATION

Although health insurance is not used primarily at Health Services, Mount St. Mary's University highly recommends students be insured. Health insurance would be needed in the event of an emergency or for most diagnostic testing outside Health Services. Prescription medications may also be less expensive if purchased from a local pharmacy through a prescription drug plan. Health Services needs this information in order to serve your student efficiently.

- **IMPORTANT!!!** If your student has a current health insurance plan, please copy the front and back of your insurance card and attach it to this form.
- If the student's illness requires outside testing; i.e. bloodwork, x-rays, etc., Health Services is not responsible for transportation to and from testing facilities.
- Students should carry a copy of their health insurance card with them at all times!
- Health Services does not address the purchase of Student Health Insurance.
